---

## Summary

---

Motivated 20-year-old student working towards a Bachelor of Computer Science, eager to pursue roles that allow myself to further develop my understanding in this area.

---

## Skills & Interests

---

- JavaScript, HTML5, CSS
- C++ & C
- Object Oriented Programming
- REST APIs
- Node.js
- CSS Frameworks (Bootstrap)
- MySQL & MongoDB
- React
- Express.js
- GitHub & Heroku Deployment

---

## Projects

---

### Social Network | [github.com/sqruppe/social-network-api](https://github.com/sqruppe/social-network-api)

- A social network web application, where users can share their thoughts, react to friends' thoughts and add friends.
- Project made from scratch, manually seeded using Insomnia and tested through MongoDB Compass.
- Made with JavaScript, Node.js, Express.js, MongoDB and Mongoose.

### Password Generator | [github.com/sqruppe/Password-Generator](https://github.com/sqruppe/Password-Generator) | [sqruppe.github.io/Password-Generator/](https://sqruppe.github.io/Password-Generator/)

- An in-browser webpage that generates a randomised password with specific criteria selected by the user.
- Given HMTL and CSS, then coded a simple JavaScript solution that interacted with these pre-existing elements.
- Made with JavaScript, HTML5 & CSS, then deployed to GitHub pages.

---
